REMARKS

After entry of the complete listing of the claims provided above, claims now pending in this application include 283-362, 364-365, 382-383, 400-401, 403-404, 406-407, 409-439, 441-505, 507-508, 510-511 and 528-547. Claims 366-381, 384-399, 402, 408 and 550-552 have been canceled without prejudice or disclaimer. No claims have been added by this paper. Entry of the above listing and claim amendments is respectfully requested.

Claim Cancellations

As indicated above, claims 366-381, 384-399, 402, 408 and 550-552¹ have been canceled in a sincere effort to remove the new matter rejection of these claims (35 U.S.C. § 112, first paragraph)² and bring all of the pending claims into allowable condition.³ The cancellation of these claims is made without prejudice or disclaimer to Applicants' right to pursue the subject matter of these claims at a later time.

Early and favorable action on this application is respectfully sought.

¹ It should be pointed out that claims 366, 370, 374-375, 379, 384, 388, 392-393, 397, 402 and 408 were canceled in Applicants' September 20, 2005 Supplemental Amendment. As astutely noted by the Supervisory Patent Examiner on page 2 in the October 19, 2005 Advisory Action, certain claims were left pending that depended from canceled claims. The SPE further noted on page 3 that "[t]he cancellation of NEW MATTER containing claims would have overcome this rejection if it [September 20, 2005 Supplemental Amendment] had been entered." Thus, in addition to removing the new matter rejection in this application, this paper seeks to correct the status of claims that otherwise depend from canceled claims, some of which include claims referred to in the October 19, 2005 Advisory Action, as well as other such claims which were uncovered by further examination of the listing of claims.

³ By bringing all of the pending claims to an allowable condition, Applicants also seek to expedite processing of their Third Request For An Interference Pursuant To 37 C.F.R. § 1.607 that was filed on July 23, 2003.
